REMOTE FACTORY ACCEPTANCE TEST (FAT) — INSPECTION REPORT

Report Reference	SPECIMEN-RFI-0001
Client / Manufacturer	Example Industrial Systems Ltd. (fictional)
Equipment	Centrifugal Pump — Model CP-100 (fictional)
Inspection Mode	Live video witnessing — demonstration scenario
Inspection Date	15 October 2026 (illustrative)
Applicable Basis	Illustrative approved ITP and test procedure; no real approval

"SPECIMEN – FOR DEMONSTRATION ONLY – NOT VALID FOR CERTIFICATION"

1. Inspection Scope

Illustrative remote review of available documents and live witnessing of selected centrifugal pump FAT activities. No physical attendance, independent measurement, NDT or certification was performed.

2. Demonstration Witnessing Record

Activity	Illustrative Observation	Status
Identification / nameplate	Model and tag shown on camera	Observed
Instrument calibration	Example certificate displayed	Document shown
Hydrostatic test	Pressure indication visible during simulated hold	Demonstration
Functional run	Operation shown by video; readings verbally confirmed	Demonstration

3. Illustrative Findings and Limitations

No actual test data, instrument readings, inspection photographs, calibrated measurements or manufacturer records are included. Camera positioning, connectivity and available documents would limit real remote inspection conclusions.

4. Demonstration Conclusion

This fictional example demonstrates how witnessed activities may be recorded. **No PASS/FAIL acceptance decision, equipment approval, compliance statement or certificate is issued.**
